

SAPNA SHARMA

Software Development Engineer

sapna.sharma220516@gmail.com · 7827476219 · [LinkedIn](#) · [GitHub](#) · [Portfolio](#) · Burari, Delhi

PROFESSIONAL SUMMARY

Software development engineer with 3+ years of experience building scalable, responsive, and high-performance web applications using React.js, Next.js, TypeScript, Node.js, and Express.js. Skilled in end-to-end feature delivery, frontend architecture, API integrations, performance optimization, and building maintainable software systems. Experienced in collaborating with cross-functional teams to deliver high-quality products throughout the software development lifecycle.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React JS, Next JS, Redux, Redux Toolkit
UI & Styling: Tailwind CSS, Chakra UI, Shadcn UI, Material UI
Backend: Node JS, Express JS (REST APIs) — working knowledge, actively expanding
Database: MongoDB, MySQL, PostgreSQL — schema design, CRUD operations
Soft Skills: Problem Solving, Creativity, Adaptability, Team Leadership, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Software Development Engineer II · Gamemano Private Limited, Noida · Sep 2024 – Present

- Developed and maintained scalable web applications across gaming, CMS, and user platforms using React.js, Next.js, TypeScript, and modern frontend technologies.
- Built the Casino Management System (CMS) from scratch, implementing authentication, middleware-based route protection, reusable architecture, and code quality standards through Husky.
- Delivered end-to-end ownership of major features, including Bonus Cabinet, Quest Calendar, package purchase, and withdrawal flows from development to production.
- Implemented performant and responsive user experiences through API integrations, server-side rendering, infinite scrolling, and reusable component design.
- Participated in architecture discussions, code reviews, technical planning, and cross-functional collaboration with designers, backend engineers, product managers, and QA teams.

Software Developer · Ash Information Technology, Noida · Apr 2023 – Jul 2024

- Developed a CRM system with features for customer data management, improving sales team efficiency.
- Built a full-featured Matrimonial Web Application with advanced search, filtering, and profile management.
- Delivered a trading platform website and CMS with responsive, accessible interfaces.
- Worked closely with backend developers to integrate APIs and maintain consistent UX across all products.

PROJECTS

Myntra Clone — E-Commerce Web Application | React JS, Redux, JavaScript, HTML5, CSS3, Chakra UI

- Features: User authentication, admin dashboard, add-to-cart and wishlist, product search, sorting and filtering, checkout, and responsive design.
- Led a 3-person team as Project Lead; personally delivered the admin dashboard, homepage, sorting/search logic, and form validations within 5 days.

SkinStore — E-Commerce Web Application | React JS, HTML5, CSS3, JavaScript, Chakra UI

- Features: Login/authentication, sliding header banner, dropdown navigation, pagination, add-to-cart, and checkout.
- Individual project delivered independently within 5 days.
